

Monterey Park Police Department

Initial Law Enforcement Response to Suicide Bombing Attacks

Presented by the Energetic Materials Research and Testing Center/New Mexico Tech, the lead DHS National Domestic Preparedness Consortium partner for explosives and firearms, live explosives, and incendiary devices training

Suicide Bombings: Threat Tactics and Techniques

Overview

ILERSBA was developed with support and cooperation from the Department of Homeland Security, National Bomb Squad Commanders Advisory Board, and New Mexico Tech to provide front line law Enforcement officers with the skills and knowledge to effectively interdict and respond to an imminent suicide bombing attack (person borne or vehicle borne) or a non-suicide attack involving a vehicle borne device.

Scope

Based on the Needs Assessment for this course there is a significant training gap for the first line Law Enforcement to interdict and respond safely and effectively to person borne suicide IED attacks or vehicle borne IED attacks. This course is intended to meet those needs and deals specifically with immediate decisions and actions in face to face encounters.

Safety Measures during Suicide Bombing Attacks

Agenda

- *Introduction-1Hr
- *Suicide Bombing: Threat Tactics and Techniques-1Hr
- *Safety Measures during Suicide Bombing Attacks-1Hr 30 Min
